

IOM VISION

UPDATED: 26 FEB 2021

In this dynamic context, IOM seeks to ensure humanitarian protection and assistance needs are met through the provision of timely, multi-sector interventions, while simultaneously addressing the root causes of vulnerability related to natural hazards and food insecurity, thereby building resilience to future risks in Zimbabwe. Addressing and facilitating rights-based service delivery and building capacity of local authorities and other key stakeholders as well as impacted communities will be critical across IOM's work.
