

STRATEGIC PLAN

2019-2021

IOM IN SOMALIA

Established in 2006, IOM Somalia has set a strong record on the delivery of frontline services to crisis-affected populations, while steadily developing models and partnerships for longer term recovery and migration governance.

STRATEGY OVERVIEW

OVERARCHING GOAL

To contribute to a stronger, more resilient Somalia through an effective and principled approach to migration and displacement matters, and the development of strategic partnerships

[DOWNLOAD THE FULL STRATEGY HERE](#)

STRATEGIC OBJECTIVES & OUTCOMES

Achieving this goal during a protracted crisis requires simultaneous action across multiple domains, reflected in three strategic objectives: a) save lives and alleviate suffering in crisis-affected populations; b) establish foundations for long-term recovery and durable solutions; and c) advance wellbeing of society and migrants through stronger migration governance and development. These objectives are not related in a linear way, but instead linked by their shared attention to vulnerable migrants and their communities. They are joined by IOM's MiGoF and other cross cutting principles, which together will facilitate resilience at all levels of society and build institutional capacities.
