IOM VISION

IOM Armenia's vision is to work towards ensuring that the over 100,000 refugees who arrived in Armenia in September and October 2023 have the opportunity to integrate fully into Armenian society, should they wish to do so. Working closely with the Armenian government, which is leading the emergency and post-crisis response, IOM plans to continue delivering life-saving assistance and improving the resilience of refugees and local communities, engaging in targeted interventions to support durable solutions, and contributing to evidence-based programming across the humanitarian-development-peace nexus (HDPN).
