

IOM staff conducting outreach activities in winter

IOM VISION

UPDATED: 25 JAN 2022

With increasing numbers of transiting irregular migrants and persons seeking asylum, complicated by COVID-19-related challenges, IOM seeks to continue to support the Government of Bosnia and Herzegovina (BiH) to effectively manage a functioning migrant reception system that is in line with international standards, adheres to best practice health practices in the case of COVID-19 mitigation, and provides living conditions at an acceptable standard, where dignity is maintained and basic needs are met. IOM is further committed to crisis recovery and crisis prevention related to the potential deterioration of social cohesion of host communities caused by the COVID-19 pandemic, as well as by rising levels of xenophobia, and violent extremist narratives.
