IOM VISION

In partnership with the Government of Burundi and other partners, IOM addresses immediate humanitarian needs while ensuring long-term actions to build resilience and foster sustainable peace and development among crisis-affected populations in Burundi, including vulnerable migrants and returnees. IOM provides life-saving humanitarian assistance, primary healthcare, and development-oriented interventions, while also supporting the government to identify opportunities for the progressive and durable resolution of displacement and returnee situations. IOM also builds the Burundian population’s resilience to recurrent shocks, mostly induced by climate change, which are increasing in intensity and frequency.
