IOM VISION

IOM Cameroon’s strategic crisis response approach rests on two key pillars: emergency response to crisis and peacebuilding, transition and recovery while mainstreaming the Humanitarian-Development-Peace Nexus into its work. To this end, IOM Cameroon provides critical information on displacement and needs, and tailored lifesaving assistance and protection, with a community-based approach. This approach aims at addressing the underlying causes of crises, opening avenues for durable solutions to displacement, and supporting mechanisms of conflict management and reduction while building community resilience so that communities progressively transition from urgent needs toward sustainable development.
