IOM VISION

UPDATED: JUNE 15, 2023

IOM Chad works to support forcibly displaced communities along border regions to provide life-saving humanitarian assistance and support to the Government of Chad in identifying opportunities to progressively address displacement situations including through the development of early/anticipatory actions to prepare for disasters, including extreme weather events. IOM Chad's community stabilization, peacebuilding and durable solutions programming holistically address displacement drivers and ensure an integrated humanitarian response which enables beneficiaries, communities and authorities to pro-actively and autonomously plan, design and participate in the shaping of programmes to enable a seamless transition and limit dependence on humanitarian aid.
