IOM VISION

UPDATED: 29 JAN 2021

In 2021, IOM, in collaboration with its partners and other crisis response actors, seeks to provide urgently needed multisectoral humanitarian assistance, stabilization and recovery support to conflict-affected populations in the Democratic Republic of the Congo (DRC). IOM will also continue to support the government in responding to the COVID-19 pandemic and post-Ebola stabilization efforts as well as strengthening preparedness for future public health hazards. Considering the many requests for accurate displacement data in the DRC, IOM also aims at expanding the scope of its Displacement Tracking Matrix (DTM) interventions to cover the entire country, including monitoring of population mobility to inform outbreak preparedness and response.
