IOM VISION

UPDATED: 12 FEB 2021

In collaboration with Libyan and international stakeholders, despite the growing operational challenges presented by political and economic instability, displacement and irregular migration, IOM seeks to alleviate suffering through the provision of assistance to crisis-affected populations as well as to advance understanding of the mobility dimensions of crisis; encourage transition and stabilization efforts through migration and uphold the well-being of migrants and Libyan society more broadly. In this dynamic context, IOM's operations remain flexible and adaptable, rooted in participatory and rights-based approaches, with gender and protection mainstreamed across its interventions.
