

Voluntary humanitarian return flight to Niger © IOM 2022

IOM VISION

UPDATED: OCTOBER 13, 2023

IOM's strategic vision for Libya is to work towards ensuring that migrants, internally displaced persons (IDPs) and all other mobile populations, including those affected by conflict in Libya, peacefully coexist with local communities in an environment where human rights, dignity and well-being are respected and promoted by a migration governance system that fosters resilience and development. IOM plans to continue delivering life-saving assistance and improving the resilience of migrant populations and local communities, engaging in targeted interventions to support Libya's residual IDP caseload to access durable solutions, and contributing to the establishment of a comprehensive, evidence-based, and people-centred migration governance system that envisages longer-term approaches to managing migration in Libya.
