

Migrants transiting in Djibouti, 2022. IOM Djibouti

## IOM VISION

UPDATED: DECEMBER 15, 2022

The Regional Migrant Response Plan (MRP) for the Horn of Africa and Yemen includes urgent life-saving humanitarian and protection interventions to improve safe and dignified access to basic services for migrants in transit, destination as well as host communities, ensuring medium to long-term actions aimed at addressing the drivers of migration; as well as building evidence, partnerships and coordination to enhance the humanitarian response and migration management throughout the migration route. Within the broader inter-agency framework developed by IOM in coordination with 40 partners, including regional and country-level non-governmental (NGOs), UN Agencies and intergovernmental partners, IOM will support governments and other partners by strengthening their capacities for better migration management to support communities of origin, transit and destination.
