IOM VISION

IOM collaborates closely with the Government of Mozambique and communities to strengthen the resilience of displaced persons and other affected populations, supporting progress towards durable solutions while ensuring critical humanitarian needs are met and rapid response capacities in the event of new disasters and crises are maintained. This simultaneous rather than sequential approach strengthens coherence between humanitarian, development and peace actions, and enables IOM to capitalize on the comparative advantages of each pillar to reduce overall vulnerability and the number of unmet needs, strengthen risk management capacities and respond to critical needs while building resilience, addressing the root causes of crises, and supporting sustainable solutions.
