## IOM VISION

Throughout 2021, Myanmar has seen surges of civil unrest, disruptions of essential services and widespread internal displacement as well as complex cross-border movements. IOM, in coordination with humanitarian and development partners, seeks to upscale and strengthen provision of essential and life-saving multi-sectoral assistance to affected populations, while building local capacities for response and recovery. Recognizing the complex mobility dynamics and cross-border implications of the crisis, IOM country offices in Myanmar and Thailand will continue to monitor mobility dynamics related to the crisis, and coordinate to ensure that preparedness actions and targeted response capacities are in place and strengthened.
