IOM VISION

IOM, in coordination with humanitarian and development partners, seeks to support the people of Myanmar through the provision of essential and life-saving multi-sectoral assistance to crisis-affected populations, while building local capacities for response and recovery. Recognizing the complex mobility dynamics and cross-border implications of the crisis, IOM aims to provide data and analysis on mobility and needs to the wider humanitarian community and will continue to coordinate to ensure that preparedness actions and targeted response capacities are in place and strengthened.
