IOM VISION

IOM, in coordination with humanitarian and development partners, seeks to support people in Myanmar through the provision of essential and life-saving multi-sectoral assistance to crisis-affected populations, while building local capacities for response and recovery. Recognizing the complex mobility dynamics and cross-border implications of the crisis, IOM aims to provide data and analysis on mobility dynamics and needs of crisis-affected people to the wider humanitarian community and will continue to coordinate to ensure that preparedness actions and targeted response capacities are in place and strengthened.
