IOM VISION

UPDATED: MARCH 28, 2024

IOM, working with partners, key stakeholders and communities, will continue to support people in vulnerable situations across South Sudan with essential life-saving assistance, while creating conducive environments for sustainable returns and recovery. IOM will adopt a community-driven approach to all programming, to facilitate transformative changes that address vulnerability and risks. Addressing these challenges means not only making a positive and lasting impact on the lives of South Sudanese affected by crises but also supporting the government in fulfilling the promises of the Revitalized Peace Agreement, creating a base of support for its continued efforts to address potential drivers for future crises.
