IOM VISION

UPDATED: APRIL 5, 2024

IOM will adopt an integrated approach in Sudan by supporting the people and Government of Sudan in managing the mobility dimensions of crises, including finding sustainable solutions to displacement. IOM will involve communities and promote localization during project design and implementation. IOM works across the humanitarian-development-peace nexus applying a conflict sensitivity lens to provide multisectoral humanitarian assistance to the most vulnerable while simultaneously promoting disaster risk reduction and emergency preparedness. IOM seeks to enhance the provision of basic services in underserved communities and address other drivers of displacement and fragility to contribute towards peaceful, inclusive and resilient communities.
