## IOM VISION

IOM will support Ukraine to ensure the dignity, safety and protection of vulnerable conflict-affected populations. Targeting internally displaced persons (IDPs), refugees, and affected communities, IOM will support the provision of and access to quality services, leveraging active and growing programming across the humanitarian, development and peace nexus. In close coordination with national and regional stakeholders, IOM is engaged in a principled and timely multi-sector response, supporting government partners and local authorities to respond to the crisis and assist affected people, including through early recovery and resilience-building initiatives which enable displaced households to take their first steps toward durable solutions.
