IOM VISION

IOM will support the dignity, safety and protection of people affected by the war in Ukraine, through a comprehensive response. Targeting internally displaced persons (IDPs), returnees, and host and affected communities, IOM will support the provision of and access to quality services, leveraging active and growing programming across the humanitarian, development and peace nexus. In close coordination with national and regional stakeholders, IOM is engaged in a principled and timely multi-sector response, supporting government partners, and local authorities and actors to respond to the crisis, including through recovery and resilience-building initiatives which enable households to find pathways towards durable solutions.
