## IOM VISION

IOM is committed to supporting the dignity, safety, and protection of all people affected by the war in Ukraine. Targeting internally displaced persons (IDPs), refugees, returnees, third-country nationals, and host communities, IOM will facilitate access to quality services through a comprehensive response across the humanitarian, development, and peacebuilding nexus. In close coordination with national and regional stakeholders, IOM will continue responding to urgent humanitarian needs while supporting recovery and resilience-building efforts, enabling people to find sustainable pathways to durable solutions in Ukraine and in refugee-hosting countries, and promoting safe mobility and rights-based migration governance in support of recovery and development agendas.
