IOM VISION

The International Organization for Migration (IOM) is committed to addressing root causes and mitigating impacts of crises and displacement through multi-sectoral programming. IOM aims to tackle the drivers of irregular migration and internal displacement, while reducing the risks and vulnerabilities faced by affected populations. IOM provides assistance primarily for mobile populations, including migrants, IDPs, and returnees, ensuring their immediate needs are met. Furthermore, it supports sustainable recovery, assisted safe and voluntary return and sustainable reintegration based on human rights principles, community stabilization, and durable solutions. This approach enhances humanitarian, peace building, and development efforts, empowering local actors as strategic partners.
