IOM VISION

In 2023, IOM in Yemen will continue to respond to the severe and worsening humanitarian crisis through the provision of lifesaving multisectoral humanitarian assistance. In addition, IOM seeks to address the pre-existing drivers of fragility and improve access to durable assistance, both of which will reduce the reliance of populations of concern on humanitarian aid and support them in transitioning from emergency to recovery conditions. In conjunction with a frontline response, IOM supports the restoration of household and public infrastructure to enhance communities' self-sufficiency and promote local ownership of the communities' recovery efforts.
