IOM VISION

In 2024, IOM in Yemen will continue responding to vast humanitarian and protection needs through the provision of lifesaving multisectoral humanitarian and specialized protection assistance in addition to supporting communities transition from a state of crisis to recovery. IOM will seek to meet immediate needs while simultaneously addressing the pre-existing drivers of fragility and improving access to durable solutions, in an effort to reduce the reliance of populations of concern on humanitarian aid. In conjunction with a frontline response, IOM supports the restoration of household and public infrastructure to enhance communities' self-sufficiency and promote local ownership of recovery efforts.
