

IOM field staff, distributing hygiene kits to migrant returnees and assisting in the transportation back to places of destination. @ IOM Zimbabwe, 2021

## IOM VISION

IOM is recognised by the Government of Zimbabwe as the principal international intergovernmental organization addressing the entire spectrum of migration issues, providing technical assistance on migration management, emergency response, health interventions, protection of migrants' rights, and dissemination of safe migration information. As the leading intergovernmental organization in the field of migration, IOM acts with its partners in the international community to assist in meeting the growing operational challenges of migration and displacement management, providing a comprehensive response to the increase in climate related disasters and displacement. IOM seeks to ensure crisis protection and assistance needs are met through the provision of timely, multi-sectoral interventions, while simultaneously addressing the root causes of vulnerability related to natural hazards thereby building resilience to future risks in Zimbabwe.
